

# Step-by-Step Instructions

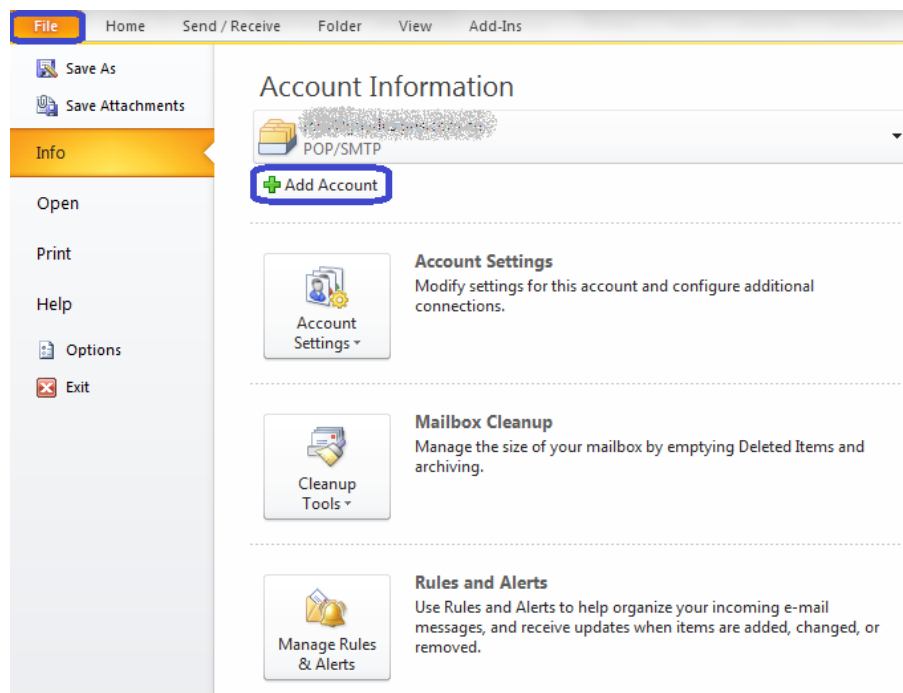

*Created for you by*

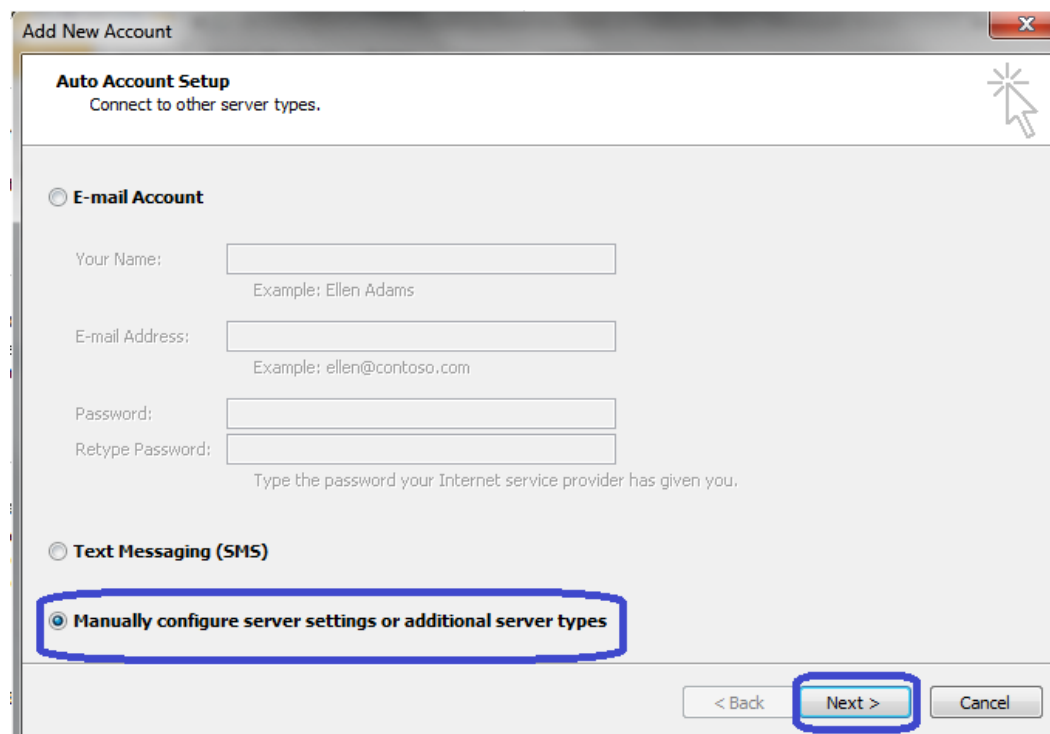

*Setting up email accounts in Outlook 2010*

Go to File in the top menu.

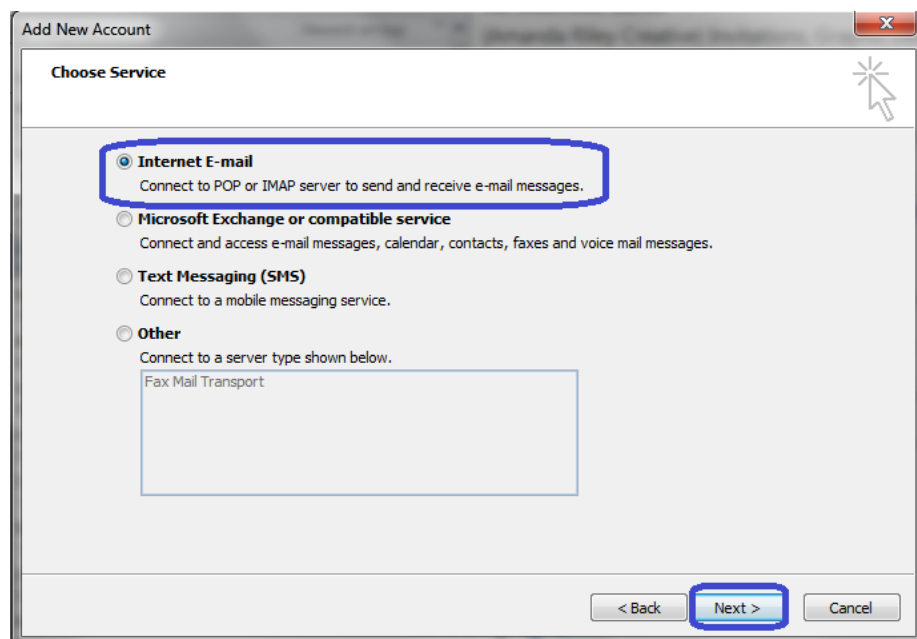

Then click "Add account"

Click on Manually configure then next button

Click on Internet Email then next button

We will provide you the details to complete this section. Once you've entered the details, click "more setting" button.

If you're using your internet provider for your outgoing server, then keep this screen clear and click on the advanced tab.

Tick to leave a copy on the server and adjust the number of days – no longer than 14 days to avoid storage issues on the server, then click OK.

## Setting up email accounts in Outlook 2010

Note: you can click on test account settings to check everything is running correctly.

It will then take you back to the details screen. Now click ok and you're done.

**Add New Account**
