

Step-by-Step Instructions

Created for you by

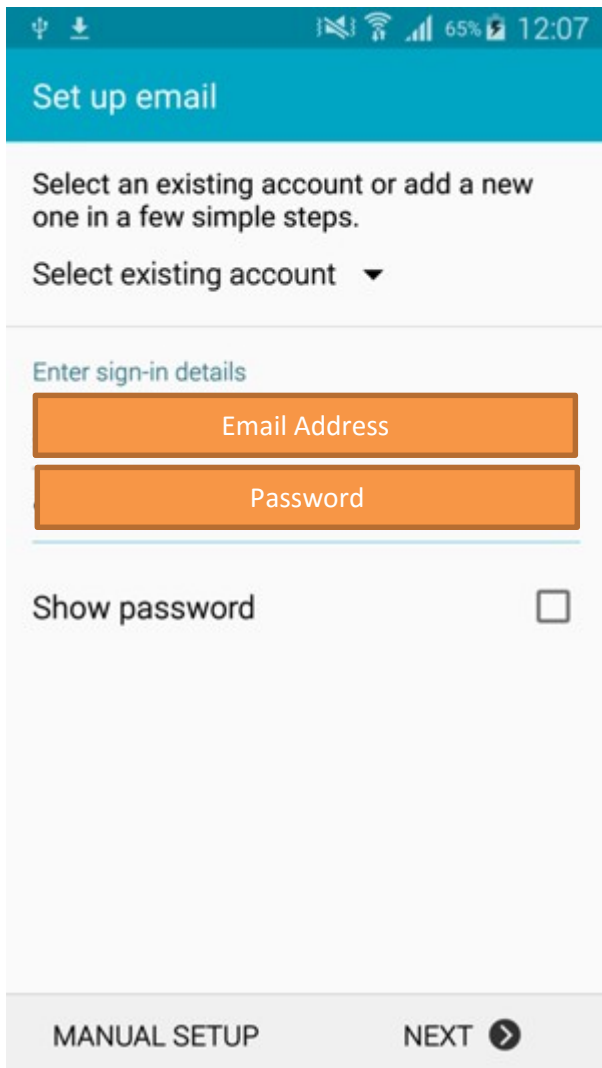

Setting Up Email On Samsung Note 4/5

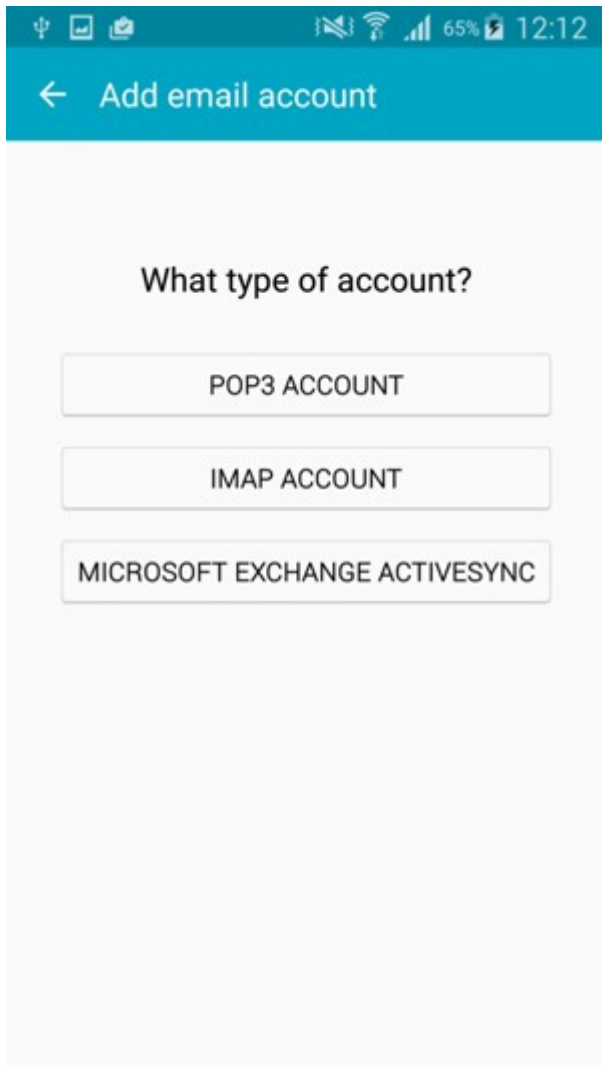

1. Select Email

2. Enter your Email address and Password. Select NEXT

3. Select POP3 ACCOUNT or IMAP ACCOUNT

4. Enter Username and Incoming server address. Select NEXT

The screenshot shows the 'Incoming server settings' screen. At the top, there is a blue header with a back arrow and the text 'Incoming server settings'. Below this, there are several input fields:

- Email address:** An orange input field with the placeholder text 'Email Address'.
- Username:** An orange input field with the placeholder text 'Email Address'.
- Password:** An orange input field with the placeholder text 'Password'.
- POP3 server:** An orange input field containing the text 'mail.yourdomain.com.au'.
- Security type:** A dropdown menu currently set to 'None' with a downward arrow.
- Port:** A text field containing the number '110'.

At the bottom right of the screen, there is a grey button labeled 'NEXT' with a right-pointing arrow.

5. Enter Outgoing server address

Outgoing server settings

SMTP server
mail.yourdomain.com.au
